

## RECYCLING REMINDER

In a recent check of the recycle collection process in AFH, many of the recyclables were not properly prepared for collection. USMA housing residents are reminded that ***nothing but the actual recyclables*** should be placed in either of your recycling containers. Do not put any plastic bags, cardboard, or any un-recyclable material such as toys and plates in your containers. When you place these items in your containers, the recyclable materials are “contaminated” and will not be picked up. Recyclables **MUST** be placed loose in the cans. On a periodic basis, we will be spot checking and leaving further instructions for those residents whose recyclables are rejected. For more information, contact USMA’s Recycling Coordinator, 938-4281.
