This course provides in-depth study of a special topic in chemistry, chemical engineering and life science not offered elsewhere in the USMA curriculum. Course content will be based on the special expertise of the Visiting Professor, Rotating PhD, or a senior faculty member. This course may also be offered as an AIAD course at USMA. This course will contain significant lab content to justify 3.5 credit hours.

**Lessons:** 40 @ 55 min (2.500 Att/wk)  
**Labs:** 7 @ 120 min

**Special Requirements:** None

**Prerequisite(s):** CH102  
-Or- CH152
