Special Section

The following pages contain some photographs of the venues that have been constructed in West Point's new Arvin Cadet Physical Development Center. The DPE faculty invites you to experience these spectacular facilities for yourself!

ACPDC Boxing Rooms

One of Arvin's two new boxing rooms is shown above. The addition of these multi-level rooms will assist in better facilitation of Plebe boxing instruction and will provide space to support the cadet intramural and club boxing programs.

Class of '79 Rock Climbing Wall

The new Class of '79 Rock Climbing Wall, shown in the photograph to the left, is a 9,000 square foot venue that is 48 feet high and over 100 feet in width. It can host between 50 and 75 climbers.

ACPDC Racquetball Courts

The Arvin Cadet Physical Development Center will feature six new state-of-the-art racquetball courts, as shown in the photograph below.

ACPDC Weight Room

The weight room will serve as an excellent addition.

Class of '79 Rock Climbing Wall

DPE's Mr. Ned Crossley (right) and former DPE Deputy Director LTC (R) Dale Newman (left) scale the Class of '79 Rock Climbing Wall.
