T H A I L A N D

SOUTH CHINA SEA

Note: There are two major monsoon seasons in South Vietnam. Generally, it rains heavily from May to September southwest of a line Tuy Duc-Di Linh and from November to March north of that line. In the "dry" season, many areas that were swampy in the monsoon turn to dust. Wet and dry seasons vary considerably in both time and intensity from area to area.

C A M B O D I A

Generally, allied units were dispersed in the western reaches of South Vietnam in an effort to meet NVA and VC attacks during the months just preceding the Tet offensive.

GULF OF SIAM

SOUTH CHINA SEA

LEGEND

- Major NVA and VC attacks, September 1967 to mid-January 1968.
- Locations of major communist attacks 30 January and shortly afterwards.
